“ I have many memories of Ms. Lilo while I was visiting my best friends in the "Village". She was always knitting and even made a scarf for me. Vicky and Luanne would tell her "longer, make it longer". She had a hard time figuring out that it had to be longer than normal because I'm 6 feet tall. She finally got it! She showed her love for other and animals by giving snacks or things she had knitted. She was a sweet soul that I will always remember.

“ I was very fortunate to have many conversations with Ms. Lilo. I especially enjoyed the little stories she told me about growing up in East Germany as a little girl during WWII. She once told me a story about meeting "an American GI" who eventually became her husband and how he brought her to America. There she met his mother, father, and other family members who she embraced. They made a family of their own with their children. She was a very kind, thoughtful, and caring lady who was always giving. I shall always cherish the time we spent just talking and anyone who had that opportunity would agree she had lots to give especially her wisdom and experience. May she rest in peace and rise in glory!

“ Ms Lieselotte was forever giving out "treats" to anyone who came to her door. She also visited and shared them with her neighbors, as well as people who mowed her grass, inspected her HVAC, or completed any type of home repair. "No thank you" was always ignored as she would insist that the treats were accepted. As her hobby of crocheting afghans and scarves served to help her stay busy, everyone who lived at New Hope Village as well as their children and grandchildren, her doctors/dentist and their staff, and librarians were the recipients of her craft. Her specialty was the red, white, and green Christmas afghans. She also created an abundance of baby blankets for expectant moms. Her love of others and her sweet smile will be missed. She was one in a million.
